

# THINKING TRAP

## Everyone thinks this?

Because there is popular support for an idea, despite a lack of evidence to support it, it is accepted anyway.

*E.g. 4 cylinder cars are the best cars because most people drive them.*

- Describe a time when you have thought this way.

- Why do you believe that thinking this way may have caused you to arrive at decisions which really were not logical?

- What is one thing you could start doing to avoid thinking this way?
