

Ionic Bonding Game

**Find the necessary ions to create each ionic bond.
Build the bond and write the formula next to its name.**

- | | |
|-------------------------------|-------|
| 1. potassium chloride | _____ |
| 2. sodium hypochlorite | _____ |
| 3. magnesium carbonate | _____ |
| 4. iron III acetate | _____ |
| 5. calcium phosphide | _____ |
| 6. aluminum phosphate | _____ |
| 7. lead IV oxide | _____ |
| 8. silver hydroxide | _____ |
| 9. gold I nitrate | _____ |
| 10. tin II sulfide | _____ |
| 11. sodium sulfate | _____ |
| 12. zinc nitride | _____ |
