

# ISSUES MATRIX

This thinking strategy enables a searching analysis of any issue.

It is best done in groups of three to stimulate conversation, but can also be done individually or as a class.

It is important for you to think hard about each box because they all provide differing perspectives on the issue.

When the threes have completed their matrix, combine to do a whole-class one; very powerful learning.

	WHAT?	WHERE?	WHEN?	WHO?	WHICH?	HOW?	WHY?
