

June 24, 2021

Dear College Admissions Office,

This year I had the pleasure of teaching Jack Cetani in my Honors Chemistry class at Deep Run High School in Glen Allen, VA. Jack is a dependable, hardworking, and highly motivated. He is eager to please, friendly, and works well with others.

Jack made the best of a difficult situation during the pandemic. He logged into class every day, actively participated in the lessons, and submitted his work on time. He also attended office hours and asked for help when needed. Jack earned straight A's this year. His current weighted GPA is 4.08 (3.86 unweighted).

Jack attended the IB School while in Switzerland and participated in many sports, such as soccer, basketball, crew, skiing, lacrosse, and baseball. He has also participated in choir, and he plays the Saxophone and Cello. Jack has served the community by participating in Lasagna Love and Boy Scouts and by cleaning local municipal properties in New Jersey. He is currently working for Gelati Celesti, but he also offers pet care, lawn mowing, snow shoveling, raking, and other part time services to his neighbors.

I believe that Jack Cetani demonstrates a strong work ethic, personal drive, and passion that will be a great asset to your university. I highly recommend him for admissions. Please feel free to contact me if you have any questions.

Sincerely,

Jennifer Krug
