

Clay Observation Survey

Letter Identification

Test all letters, lower case and upper case. Ensure that the child reads across the lines so that the letters are treated in a random order (and not in alphabetical order).

Use only the following questions to get the child to respond to the letters. Ask for letter names.

To introduce the task:

- What do you call these?
- Can you find some that you know?

Pointing to each letter in horizontal lines:

- What is this one?

If a child does not respond:

Try this prompt

- Do you know its name?

Then moving to other letters:

- What is this? And this?

If the child hesitates, try pointing to letters in his/her name and then go back to the first line.

SCORING

Use the Letter Identification columns on the Letter & Sound Identification Score Sheet. Make a ✓ for each letter identified correctly; record what the child says when the response is incorrect.

It is not necessary to retest known items. This is a cumulative assessment.

Score as correct:

- letter name

This subtest helps you to know

- the letters the child knows;
- the letters a child confuses; and
- the unknown letters.
