

STATE,  
DESCRIBE,  
JUSTIFY

As a class, discuss an issue that is not clearly right or wrong.

Individually state your opinion on the issue in the **Individual** section.

Then describe what you know about the issue in the **Describe** section.

In the **Why** section, justify why you made the opinion you did.

In threes, discuss and reflect on your views and come up with a combined one.

There may not be full agreement in the discussion so find the points you all have in common.

The activity can be extended to developing a whole class collection of viewpoints.

The essential point is for you to justify your opinions and interpretations on the issue.
