

TIME MACHINE: THERE, THEN – HERE, NOW

This activity is excellent to use as a class, to look at an issue where people's attitudes and values have changed over the years significantly.

You are to be a time traveller and go back in time. State what the thinking was back then on the issue in the **There, Then** section.

Also consider why people thought the way they did in the **Why Reasons** section. What was their reasoning?

Think about the issue today and state how people think about it today in the **Here, Now** section.

Also, consider why people now think in this way in the **Why Reasons** section.

Explain shifts in outlook for other issues and discuss them.

When the class is sharing their thoughts on There, Then and Here, Now, add new thoughts to your own ideas.

In a class discussion, explain what has changed for people's thinking to have changed in **Exploring Why**.

THERE, THEN

What was people's thinking on this issue back then?

WHY REASONS

Why did people think this way; what was their reasoning?

HERE, NOW

What is people's thinking on this issue today?

WHY REASONS

Why do people think this way now?

EXPLORING WHY

What has changed from the past to change the way people think on the issue?
